Pharmacists/Opioid Antagonists - Notice of the Board of Pharmacy announces a meeting on a proposal to amend regulations under R4-23 to allow pharmacists to dispense an opioid antagonist without a prescription. The rule specifies reporting, education and disclosure requirements and provides that pharmacists who have completed an opioid overdose and treatment training program may administer an opioid antagonist to a person who is experiencing an opioid-related overdose. The meeting is scheduled for Oct. 13, 2016, via teleconference. Contact: Board of Pharmacy; 602-771-2727 —Arizona Administrative Register (10/06/2016)

Pseudoephedrine Sales/GANPLEX Program - Notice of the State Board of Pharmacy announces the implementation of the Georgia National Precursor Log Exchange (GANPLEX) program. The program provides for all over-the-counter pseudoephedrine (PSE) sales in a pharmacy to be reported to and maintained in a central electronic database to determine if a person has already purchased or exceeded their allowable quantity of PSE per day and per month.
