# 1 Document Overview

This document serves as a training guide and support manual for dispensers of Schedule II through Schedule V controlled substances in Georgia who use Appriss Health's PMP Clearinghouse repository to report their dispensations. It includes such topics as:

- Reporting requirements for dispensers in the State of Georgia
- Data file submission guidelines and methods
- Creating a PMP Clearinghouse account
- Creating a data file
- Uploading or reporting data
- Understanding and correcting errors

This guide is intended for use by all dispensers in the State of Georgia required to report the dispensing of controlled substances.

---

## 2 Data Collection and Tracking

### 2.1 Data Collection Overview

The purpose of the Prescription Drug Monitoring Program (PDMP) shall be to assist in the reduction of the abuse of controlled substances; to improve, enhance, and encourage a better quality of healthcare by promoting the proper use of medications to treat pain and terminal illness; and to reduce duplicative prescribing and overprescribing of controlled substances practices. The data collected will be used to enhance patient care by providing prescription drug monitoring information that will ensure legitimate use of controlled substances in healthcare, including palliative care, research, and other medical pharmacological uses.

For each 24-hour period during which the pharmacy does not dispense a monitored prescription drug, the pharmacy must submit a zero report to the PDMP.

### 2.2 Data Collection Requirements

Each time a controlled substance is dispensed to an individual using a format approved by the Georgia Department of Public Health (DPH), data must be submitted within 24 hours of dispensing the monitored controlled substance; however, dispensers are encouraged to submit more frequently, if they so choose.

\*\*A dispenser is defined as a person licensed under the laws of this state, or any other state or territory of the United States, to dispense or deliver a Schedule II, III, IV, or V controlled substance to the ultimate user in this state but shall not include:

- a. A pharmacy licensed as a hospital pharmacy by the Georgia State Board of Pharmacy pursuant to Code Section 26-4-110;
- b. An institutional pharmacy that serves only a healthcare facility, including, but not limited to, a nursing home, an intermediate care home, a personal care home, or a hospice program, which provides patient care and which pharmacy dispenses such substances to be administered and used by a patient on the premises of the facility;
- c. A practitioner or other authorized person who administers such a substance;  
or
- d. A pharmacy operated by, on behalf of, or under contract with the Department of Corrections for the sole and exclusive purpose of providing services in a secure environment to prisoners within a penal institution, penitentiary, prison, detention center, or other secure correctional institution. This shall include correctional institutions operated by private entities in this state which house inmates under the Department of Corrections.

All dispensers of controlled substances must meet the reporting requirements set forth by Georgia law in a secure methodology and format. Information about controlled substance dispensing activities must be reported on regular intervals to the DPH through the authorized data collection vendor, Appriss, Inc.

## 2.3 Reporting Requirements

**Effective July 1, 2017, the DPH will begin requiring pharmacies and dispensers to report controlled substance dispensations to the Georgia PDMP via PMP Clearinghouse. Dispensations must be reported within 24 hours of dispensing the prescription.**

**The laws and regulations for reporting to the Georgia PDMP are continuously subjected to amendments. It is the responsibility of dispensers to be aware of such updates as they are enacted and promulgated.**

**All dispensers of Schedule II–V controlled substance prescriptions are required to collect and report their dispensing information. In addition, all prescriptions containing pseudoephedrine should be submitted to the PDMP.** Such reporting without individual authorization by the patient is allowed under HIPAA, 45CFR § 164.512, paragraphs (a) and (d). DPH is the state oversight agency, and Appriss acts as an agent of DPH in the collection of this information.

The following elements are required by law to be reported. For additional details on these elements and others of ASAP 4.2, please refer to [Appendix A: ASAP 4.2 Specifications](#).

## 2.4 Exemptions

The following entities are exempt from reporting data:

- A pharmacy licensed as a hospital pharmacy by the Georgia Board of Pharmacy pursuant to Code Section 26-4-110;
- An institutional pharmacy that serves only a healthcare facility, including, but not limited to, a nursing home, an intermediate care home, a personal care home, or a hospice program, which provides patient care and which pharmacy dispenses such substances to be administered and used by a patient on the premises of the facility;
- A practitioner or other authorized person who administers such a substance; or
- A pharmacy operated by, on behalf of, or under contract with the Department of Corrections for the sole and exclusive purpose of providing services in a secure environment to prisoners within a penal institution, penitentiary, prison, detention center, or other secure correctional institution. This shall include correctional institutions operated by private entities in this state which house inmates under the Department of Corrections.

## 2.5 Noncompliance

Any dispenser who knowingly and intentionally fails to submit prescription information to DPH as required by Georgia law or knowingly and intentionally submits incorrect prescription information shall be guilty of a felony and, upon conviction thereof, shall be punished for each such offense by imprisonment for not less than one year nor more than five years, a fine not to exceed \$50,000, or both, and such actions shall be reported to the licensing board responsible for issuing such dispenser's license for action to be taken against such dispenser's license.

## 3 Data Submission

This chapter provides information and instructions for submitting data to the PMP Clearinghouse repository.

### 3.1 Timeline and Requirements

- Pharmacies and software vendors can establish submission accounts and begin submitting data upon receipt of this guide. See [Creating Your Account](#) for more information.
- As of July 1, 2017, dispensers are required to transmit their data using PMP Clearinghouse in accordance with the guidelines outlined under [Reporting Requirements](#).
- If a pharmacy does not dispense any controlled substances for the preceding reporting period, it must file a zero report for that reporting period or it will be considered noncompliant. Please refer to the [Zero Reports](#) section of this document for additional details.

### 3.2 Upload Specifications

Files should be in the ASAP 4.2 format, which was released in September 2011, as defined in [Appendix A: ASAP 4.2 Specifications](#). Files for upload should be named in a unique fashion, with a prefix constructed from the date (YYYYMMDD) and a suffix of “.dat”. An example file name would be “20110415.dat”. All of your upload files will be kept separate from the files of others.

Reports for multiple pharmacies can be in the same upload file in any order.

## 4 Accessing Clearinghouse

This chapter describes how to create your PMP Clearinghouse account and how to log in to the PMP Clearinghouse web portal.

### 4.1 Creating Your Account

Prior to submitting data, you must create an account. **If you are currently registered with the Appriss PMP Clearinghouse system, you *do not* need to register for a new account—you will be able to add Georgia to your existing account for data submissions.** If you have an existing PMP Clearinghouse account, please refer to [Adding States to Your Upload Account](#) to add states to your account.

#### Notes:

- *Data from multiple pharmacies can be uploaded in the same file. For example, chain pharmacies may send in one file containing controlled substance dispensing information for all their pharmacies licensed in the State of Georgia. Therefore, chains with multiple stores need only to set up one account to upload a file.*
- *PMP Clearinghouse allows users to submit data through the web portal via manual entry (UCF) or upload of ASAP files. For users who prefer an encrypted transfer method, SFTP access is also available. You may set up your SFTP account during the account creation process.*
- *If you need to make changes to an existing PMP Clearinghouse upload account, please refer to [Managing Your Upload Account](#).*

Perform the following steps to create an account:

1. Open an internet browser window and navigate to the PMP Clearinghouse Account Registration page located at <https://pmpclearinghouse.net/registrations/new>.

**Account Registration**

2. Complete your Profile Details.

The screenshot shows a web form titled "Profile Details" with a legend indicating that an asterisk (\*) denotes a required field. The form contains three input fields: "Email Address \*", "Password \*", and "Password confirmation \*".

- a. Enter your current, valid email address in the **Email Address** field.

**Note:** The email address you provide here will act as your username when logging into the PMP Clearinghouse system.

- b. Enter a password for your account in the **Password** field, then re-enter it in the **Password Confirmation** field. The password requirements are provided below.

*Passwords must contain:*

- At least eight (8) characters
- One (1) uppercase letter
- One (1) lowercase letter
- One (1) number
- One (1) special character, such as !, @, #, \$, etc.

3. Complete your Personal and Employer information, noting the following:
- Required fields are marked with an asterisk (\*).
  - You may be able to auto-populate your Personal and/or Employer information by entering your (or your employer's) **DEA**, **NPI**, and/or **NCPDP** number, then clicking the search icon (🔍). If the number you entered is found, your information will automatically be populated.

4. If secure file transfer protocol (SFTP) is required, complete the Data Submission section of the page.

**Notes:**

- If SFTP access is not required, you do not need to complete the Data Submission section and you may continue to step 5.
- You may add SFTP access to an existing account. Please refer to [Adding SFTP Access to an Upload Account](#) for complete instructions.

### Data Submission

PMP Clearinghouse users are able to submit data through the web portal via manual entry or upload of ASAP files. Secure FTP (SFTP) access is available, and Real-Time submissions are also available in select states.

Enable SFTP Access

Enable Real-Time Access

- a. Click to select the **Enable SFTP Access** checkbox.

The SFTP access fields are displayed.

### Data Submission

PMP Clearinghouse users are able to submit data through the web portal via manual entry or upload of ASAP files. Secure FTP (SFTP) access is available, and Real-Time submissions are also available in select states.

Enable SFTP Access

SFTP Username

SFTP Password

SFTP Password Confirmation

Password must include at least 8 characters, including 1 capital letter, 1 lowercase letter, and 1 special character (such as !, @, #, \$)

Enable Real-Time Access

- b. Your **SFTP Username** is automatically generated using the first five characters of your employer's name + your employer's phone number + @prodpmssftp. For example, if you entered "Test" as your employer's name and "555-555-5555" as your employer's phone number, your SFTP username would be *test5555555555@prodpmssftp*.
- c. Enter a password for your SFTP account in the **SFTP Password** field, then re-enter it in the **SFTP Password Confirmation** field. The password requirements are provided below.

*Passwords must contain:*

- *At least eight (8) characters*
- *One (1) uppercase letter*
- *One (1) lowercase letter*
- *One (1) number*
- *One (1) special character, such as !, @, #, \$, etc.*

This password will be input into the pharmacy software so that submissions can be automated.

**Notes:**

- *This password can be the same as the one previously entered under Profile.*
- *Unlike the Profile password (i.e., your user account password), the SFTP password does not expire.*
- *The URL to connect via SFTP is [sftp://sftp.pmpclearinghouse.net](ftp://sftp.pmpclearinghouse.net).*
- *Additional details on SFTP configuration can be found in [Appendix C: SFTP Configuration](#).*

5. In the Submission Destinations section of the page, select the state(s) for which you will be submitting data.
6. Click **Submit**.

The request is submitted to the PMP administrator for each of the states you selected for data submission, and the Registration Information Overview page is displayed.

### Account Registration

**Thank you** for registering with PMP Clearinghouse, a service of PMP AWARxE.  
A link to verify your email address has been sent. You must confirm your email address before you can login to PMP Clearinghouse. Your data submission request has been sent to your requested state(s) for processing. Upon approval, you may begin submitting prescription data.

## 5 Data Delivery Methods

This chapter provides information about data delivery methods you can use to upload your controlled substance reporting data file(s) to PMP Clearinghouse.

For quick reference, you may click the desired hyperlink in the following table to view the step-by-step instructions for your chosen data delivery method:

Delivery Method	Page
<a href="#">Secure FTP</a>	12
<a href="#">Web Portal Upload</a>	12
<a href="#">Manual Entry (UCF)</a>	14
<a href="#">Zero Reports</a>	17

### 5.1 Secure FTP

If you are submitting data to PMP Clearinghouse using SFTP, you must configure individual sub-folders for the state PMP systems to which you are submitting data. These sub-folders must be created in the *homedir/directory* folder, which is where you are directed once authenticated, and **should be named using the state abbreviation (e.g., AK, KS, GA, etc.)**. Data files not submitted to a state sub-folder will be required to have a manual state PMP assignment made on the [File Listings](#) page. Please refer to [State Subfolders](#) for additional details on this process.

1. If you do not have a PMP Clearinghouse account, perform the steps in [Creating Your Account](#).  
Or
2. If you have a PMP Clearinghouse account but have not enabled SFTP access, perform the steps in [Adding SFTP Access to an Upload Account](#).
3. Prepare the data file(s) for submission, using the ASAP specifications described in [Appendix A: ASAP 4.2 Specifications](#).
4. SFTP the file to <sftp://sftp.pmpclearinghouse.net>.
5. When prompted, enter the username and password you created when setting up the SFTP account.
6. Place the file in the appropriate state-abbreviated directory.
7. You can view the results of the transfer/upload on the Submissions page in PMP Clearinghouse.

**Note:** If you place the data file in the root directory and not a state sub-folder, a **“Determine PMP”** error is displayed on the File Status page, and you will be prompted to select a destination PMP (state) to which the data should be sent.

### 5.2 Web Portal Upload

1. If you do not have an account, perform the steps in [Creating Your Account](#).
2. Prepare the data file(s) for submission, using the ASAP specifications described in [Appendix A: ASAP 4.2 Specifications](#).

3. [Log in to PMP Clearinghouse.](#)
4. From the home page, click the **File Upload** tab.

The File Upload page is displayed.

5. Select the state PMP to which you are submitting the file from the drop-down list in the **Select PMP** field.
6. Click the **Browse** button, located next to the **File Upload** field, and select the file you created in step 2.
7. Click **Upload**.

A message is displayed prompting you to confirm the submission.

8. Click **Upload** to continue with the file submission.

Your file is uploaded, and you can view the results of the upload on the File Listings page.

**Note:** When uploading a file, the file name must be unique. If the file name is not unique, a message is displayed indicating that the file name has already been taken.

## 5.3 Manual Entry (UCF)

You can manually enter your prescription information into the PMP Clearinghouse system using the Universal Claim Form (UCF) within the PMP Clearinghouse web portal. This form allows you to enter patient, prescriber, dispenser, and prescription information.

Please refer to [Reporting Requirements](#) for the complete list of reporting requirements.

1. If you do not have an account, perform the steps in [Creating Your Account](#).
2. [Log in to PMP Clearinghouse](#).
3. Click **UCF Submissions**.

The UCF Listings page is displayed.

The screenshot shows the 'UCF Listings' page. At the top, there are tabs for 'UCF Listings', 'Manage Claim Forms', and 'New Claim Form'. Below this, there is a 'UCF Listings' section with a 'Show 10 entries' dropdown and a search box. The main content area shows a table with columns for 'Created at', 'State', 'Warnings', 'Errors', and 'Status'. The table contains five rows of data, all with a status of 'Success'.

## 5.4 Zero Reports

If you have no dispensations to report for the preceding reporting period, you must report this information to the Georgia PDMP.

You may submit your zero report through the PMP Clearinghouse web portal by following the steps below or via SFTP using the ASAP Standard for Zero Reports. For additional details on submitting via SFTP, please refer to [Appendix B: ASAP Zero Report Specifications](#).

You may submit zero reports through the PMP Clearinghouse web portal using one of the following methods:

- [Submit a single-click zero report](#)
- [Create a new zero report](#)

### 5.4.1 Submit a Single-Click Zero Report

Single-click zero reporting allows you to create a profile for the pharmacy that includes its identifiers (e.g., DEA, NPI, NCPDP), so you do not have to enter it each time you submit a zero report.

To create a pharmacy profile and begin submitting single-click zero reports:

1. If you do not have an account, perform the steps in [Creating Your Account](#).
2. [Log in to PMP Clearinghouse](#).
3. Click **Zero Reports**.

The Zero Report Listings page is displayed.

4. Click the **Create Zero Report** tab.

The Create Zero Report page is displayed. *Note that **Submit a Single Click Zero Report** is selected by default.*

- Any pharmacies you have already configured for single-click zero reporting are displayed at the bottom of the page. Continue to [step 10](#) to submit a zero report for those pharmacies.
- If you have not configured your pharmacy for single-click zero reporting, continue to [step 5](#).

5. Click **Add New Pharmacy**.

The New Pharmacy page is displayed.

6. Select the PMP for which you are submitting a zero report from the drop-down list in the **PMP** field.
7. Enter the pharmacy's name in the **Pharmacy** field.
8. Populate the **NCPDP**, **DEA Number**, and/or **NPI** fields as required by the PMP you selected in step 6. If any of these fields are required, a red asterisk (\*) will be displayed next to that field once you have selected a PMP.
9. Click **Save**.

The pharmacy is saved and will be listed under the drop-down for the selected PMP, which is located at the bottom of the page.

10. Click the plus sign (“+”) next to the PMP for which you wish to submit a zero report.

The list of pharmacies you have configured for single-click zero reporting for that PMP is displayed. *Note that this page allows you to submit a zero report for the current date (**Today**) or the previous day (**Yesterday**).*

**Note:** You may edit or delete a pharmacy from this page.

- To edit a pharmacy, click **Edit** to display the Edit Pharmacy page and make any necessary changes. Refer to steps 6–9 for guidance on entering pharmacy information.
- To delete a pharmacy, click **Delete**. You will be prompted to confirm the deletion. Once you confirm the deletion, the pharmacy configuration will be removed.

### 5.4.2 Create a New Zero Report

1. If you do not have an account, perform the steps in [Creating Your Account](#).
2. [Log in to PMP Clearinghouse](#).
3. Click **Zero Reports**.

The Zero Report Listings page is displayed.

Account	State	Start Date	End Date	NCPDP	DEA	NPI	ASAP File	Date Submitted
...	AL	01/16/2020	01/16/2020	...	...	...	...	01/16/2020 5:13 PM
...	AL	01/16/2020	01/16/2020	...	...	...	...	01/16/2020 5:04 PM

4. Click the **Create Zero Report** tab.

The Create Zero Report page is displayed. *Note that **Submit a Single Click Zero Report** is selected by default.*

The screenshot shows the 'Create Zero Report' page. At the top, there are two tabs: 'Zero Reports Listings' and 'Create Zero Report'. Below the tabs, the heading 'Create Zero Report' is followed by two radio button options: 'Submit a Single Click Zero Report' (which is selected) and 'Create new Zero Report'. Underneath, there is a section titled 'Create Single Click Zero Report' with explanatory text and a note about the time frame. A blue button labeled 'Add New Pharmacy' is visible. At the bottom, there is a table with columns for 'Pharmacy', 'NCPDP', 'DEA Number', 'NPI', 'Actions', and 'Submit Zero Reports for:'. A 'Demo' link is also present.

5. Click the button to select **Create new Zero Report**.

The Create Zero Report page is displayed.

The screenshot shows the 'Create Zero Report' page with the 'Create new Zero Report' radio button selected. The form contains several input fields: a dropdown menu for 'PMP \*' with the placeholder 'Select a PMP...', a text box for 'NCPDP', a date field for 'Start date \*' with the placeholder 'mm/dd/yyyy' and 'DEA Number' label, and another date field for 'End date \*' with the placeholder 'mm/dd/yyyy' and 'NPI' label. A blue 'Submit' button is located at the bottom of the form.

6. Select the PMP for which you are submitting a zero report from the drop-down list in the **PMP** field.
7. Enter the start date and end date for the zero report in the **Start date** and **End date** fields using the **MM/DD/YYYY** format. You may also select the dates from the calendar that is displayed when you click in these fields.

The image shows a date selection interface. At the top, it says '<< February 2019 >>'. Below that is a calendar grid with days of the week (Su, Mo, Tu, We, Th, Fr, Sa) and dates (27, 28, 29, 30, 31, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 1, 2, 3, 4, 5, 6, 7, 8, 9). To the right of the calendar is a dropdown menu. Below the calendar is a text input field with a blue border containing the placeholder text 'mm/dd/yyyy'.

8. Enter your NCPDP, DEA, and/or NPI numbers, if required by your state's PMP.

**Note:** If any of these fields are required by your state's PMP, they will be marked with a red asterisk (\*).

9. Click **Submit**.  
Your zero report is submitted to PMP Clearinghouse and will be displayed on the **Zero Report Listings** tab.

## 6 Data Compliance

This chapter describes how to view the status of your submitted data files and how to correct errors.

### 6.1 File Listings

The File Listings page displays information extracted from the data files submitted to PMP Clearinghouse, including the file name, number of records identified within the data file, number of records that contain warnings, number of records that contain errors, and the date and time of submission. The File Listings page is displayed upon logging in to Clearinghouse; you may also click **File Submissions** from the menu at any time to access this page.

You may sort the File Listings page by account name, file name, state, number of records, warning count, error count, and date submitted. You may also click the account name to display the account details.

Account	File	State	Records	Warnings	Errors	Submitted	Status	Status Report

SMITHERMANS PHARMACY	test_data_for_residents	-	0			01/29/2019 05:31PM	ASAP errors	-

- The **Status** column, located at the end of each row, displays the file status.
- The **Status Report** column, located next to the **Status** column, contains a link to the status report for that file. Please refer to [File Status Report](#) for more information on how to read and interpret this report.

If a file contains errors, it will have a status of **“Pending Dispensation Error.”** You can click the error message in the **Status** column to display the Error Correction page, which allows you to view the records containing errors (see [View Records](#) for more information). Please refer to [Error Correction](#) for instructions on how to correct errors.

If a file is unable to be parsed into the PMP Clearinghouse application, it will have a status of **“ASAP Errors.”** To correct these errors, a new file must be submitted to PMP Clearinghouse. It is not necessary to void a file that failed parsing since it was not successfully submitted to PMP Clearinghouse.

If you submitted a file via SFTP without using a state-specific sub-folder, the file will be displayed, and you will be prompted to select a destination PMP to which the data file will be transferred.

## 6.2 UCF Listings

The UCF Listings page displays information about the UCFs submitted to PMP Clearinghouse, including the number of warnings and errors. Click **UCF Submissions** to access this page.

You may sort the UCF Listings page date created, state, warning count, error count, and status.

Created at	State	Warnings	Errors	Status
01/15/2019 02:13 PM	KS	0	0	✓
01/17/2019 07:38 PM	KS	0	0	✓
01/28/2019 03:51 PM	CR	0	0	✓
01/28/2019 04:04 PM	CR	0	0	✓
01/28/2019 04:07 PM	CR	0	0	✓
01/28/2019 04:11 PM	CR	0	0	✓

The **Status** column, located at the end of each row, displays the UCF's status. Data entered into the UCF is validated upon submission; therefore, successfully submitted UCFs should not contain errors. However, if you have attempted to submit a UCF with errors and did not immediately correct those errors and submit the record, you have 30 days to make updates to these records in Clearinghouse.

1. To view pending or incomplete submissions, click the **Manage Claim Forms** tab on the UCF Listings page.

Created at	State	Warnings	Errors	Status
01/15/2019 02:13 PM	KS	0	0	✓

**Note:** If there are no errors, you are returned to the UCF Listings page and your report is listed there.

5. Correct the indicated errors, then repeat steps 3-4.
6. Once your data has been successfully submitted, your report is listed on the UCF Listings page.

## 6.3 Error Correction

### 6.3.1 View Records with Errors

The Error Correction page displays more information about the records within a selected data file that need correcting, including **Prescription Number**, **Segment Type**, **Warning Count**, and **Error Count**. To access this page, click the **“Pending Dispensation Error”** message in the **Status** column of the [File Listings](#) page.

DEA Number	NCPDP Identifier	Prescription Number	Name	Filled At	Segment Type	Warning Count	Error Count
BM4601616		ERROR_DSP25_CORRECT	MEDICINE SHOPPE	2019-01-27	Patient	0	1

The **Correct** button, located at the end of each row, allows you to make corrections to the record.

### 6.3.2 Error Correction via PMP Clearinghouse

Once you click **Correct** on the Error Correction page, the Errors page is displayed. This page displays detailed information about the records within a selected data file that need correcting, including all the fields contained within the record and the originally submitted value, and allows you to correct those records.

Field	Submitted Value	Corrected Value	Messages
National provider identifier	1104923507	1104923507	✓
NCPDP identifier	0068568	0068568	✓
DEA number	BE9432042	BE9432042	<b>Warnings:</b> DEA number warning: DEA number not found in registry.
Name	<input type="text"/>		<b>Errors:</b> Name value must be present.
Phone number	4017704455	4017704455	✓

- The **Corrected Value** column allows you to enter a new value to correct the error.
- The **Messages** column displays the relevant error message explaining why the value entered in that field did not pass the validation rules.

**For files that failed to parse, the error identified is "best effort" and any information we could not parse is listed as "unparseable" in the file. In this case, you must submit a corrected file.**

**To correct records:**

1. Identify the fields that require corrections. Fields containing errors are highlighted in red, as shown in the screenshot above.
2. Enter the corrected value in the **Corrected Value** column.
3. Click **Submit**.

The error is processed through the validation rules.

- a. If the changes pass the validation rules, the record is valid, and a message is displayed indicating that the errors have been corrected. The [File Listings](#) and [Error Correction](#) pages are also updated.
- b. If the changes fail the validation rules, a message is displayed indicating that there was a problem correcting the errors, and the **Message** column is updated with any new error message. Repeat steps 2–3 until the errors have been corrected and the file can be successfully submitted.

## 7 Email Reports

Email status reports are automatically sent to all users associated with a specific data submitter account. These reports are used to identify errors in files that have been submitted and to confirm zero report submissions. This chapter describes the status reports you may receive via email.

### 7.1 File Failed Report

You will receive the *File Failed Report* if a submitted file was not able to be parsed and was not processed into PMP Clearinghouse. The report contains a description of the error encountered within the file. In the event of a failed file, a new file should be submitted with the necessary corrections.

**Note:** Failed files are not parsed into Clearinghouse and do not require a voided ASAP file to remove it from the system.

An example *File Failed Report* is provided below.

```
SUBJ: Georgia ASAP file: fake-test3.txt - Parse Failure

BODY:
Error Message
-----
-----
Failed to decode the value '04' for the bean id
'transactionControlType'.

Summary:
* File Name: fake-test3.txt
* ASAP Version: 4.2
* Transaction Control Number: unparseable
* Transaction Control Type: unparseable
* Date of Submission: April 30, 2015

NOTE: This file could not be received into the system because the
system could not recognize its content as a valid ASAP format.
Action is required to resolve the issues and a subsequent file
should be submitted. As such the information provided in this
report is "best effort" and any information we could not parse is
listed as "unparseable" in the fields above.
```

### 7.2 File Status Report

The *File Status Report* serves as notification that a data file is currently being parsed by the state PMP system.

This report identifies specific records in the submitted data file and returns identifying information about the record, including specific errors identified during the validation process. It uses fixed-width columns and contains a summary section after the error listings. Each column contains a blank two-digit pad at the end of the data.

The columns are set to the following lengths:

Column	Length
DEA	11 (9 + pad)
NCPDP	9 (7 + pad)
NPI	12 (10 + pad)
Prescription	27 (25 + pad)
Filled	10 (8 + pad)
Segment	18 (16 + pad)
Field	18 (16 + pad)
Type	9 (7 + pad)
Message	Arbitrary

The *File Status Report* notifies you of the following scenarios:

- **Total records:** The total number of records contained in the submitted data file.
- **Duplicate records:** The number of records that were identified as already existing within the PMP system. Duplicate records are not imported to prevent improper patient information.
- **Records in process:** The number of records remaining to be processed into the system (usually only displays a number if the file has not finished loading at the time the report is sent out).

*Note: Records remaining to be processed will continue to be processed even after the status report is sent.*

- **Records with errors:** The number of records that contain errors. These errors must be corrected for the record to be imported into the system. If a zero (0) is displayed, there are no errors in the data. Please refer to [Error Correction](#) for instructions on correcting errors.
- **Records with warnings:** The number of records that contain warnings. These warnings do not need to be corrected for the record to be imported into the system. If a zero (0) is displayed, there are no warnings in the data.
- **Records imported with warnings:** The number of records with warnings that were imported. If a record contains both warnings and errors, the errors must be corrected to be submitted to the system. Please refer to [Error Correction](#) for instructions on correcting errors.
- **Records imported without warnings:** The number of records without warnings that were imported.

*Note: The initial File Status Report is sent out two (2) hours after the file has been submitted to the system. Additional reports will be sent out every 24 hours if errors continue to be identified within a submitted data file.*

An example *File Status Report* is provided on the following page.

SUBJ: Georgia ASAP file: fake-test3.txt - Status Report

## 7.3 Zero Report Confirmation

You will receive a *Zero Report Confirmation* after successfully submitting a zero report to PMP Clearinghouse. This report displays the state PMP to which the zero report was submitted, date range for the zero report, date the zero report was submitted to PMP Clearinghouse, and date the report was originally created.

An example *Zero Report Confirmation* is provided below.

## 8 Managing Your Upload Account

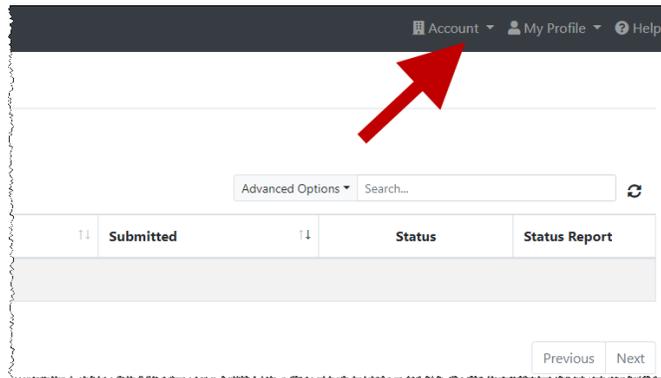

The **Account** menu option allows you to manage the information associated with your organization's upload account, including adding users, states, and SFTP access to your account as well as editing your organization's account information.

**Note:** This chapter contains information for managing the upload account with which your user account is associated. For information about editing and managing your individual user account, including how to change your password, please refer to [Managing Your User Profile](#).

### 8.1 Adding Users to Your Upload Account

PMP Clearinghouse allows data submitters to add new users to the system who have the same rights and access to submitting data and viewing file status. This practice allows you to create an account to be used for a backup individual.

1. [Log in to PMP Clearinghouse](#).
2. Click **Account**.

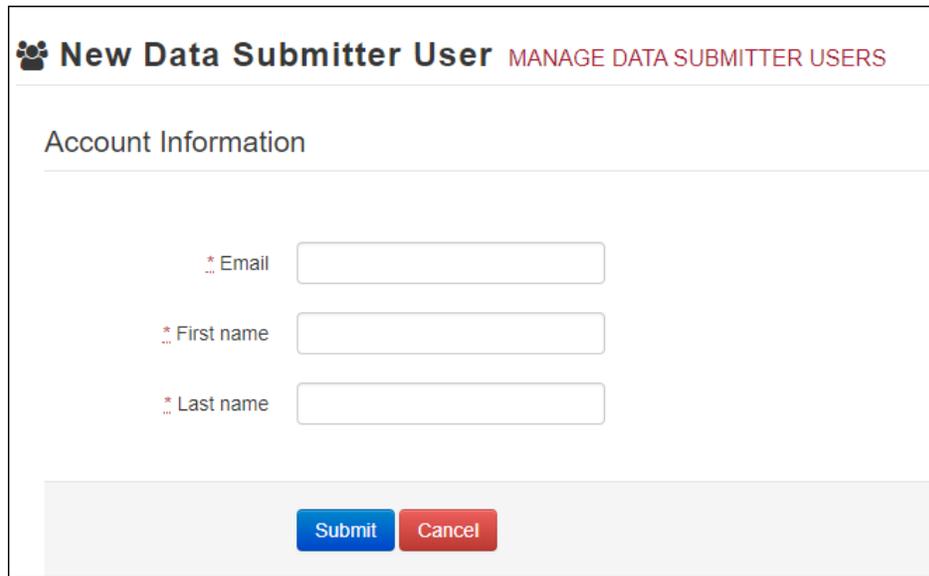

3. Select **Users** from the **Account** drop-down menu.  
The Account Users page is displayed.

A screenshot of the 'Test Pharmacy Account Users' page. The page title is 'Test Pharmacy Account Users' with a sub-header 'MANAGE DATA SUBMITTER USERS'. In the top right corner, there is a blue 'New User' button. Below the title, there is a search bar and a 'Show 10 entries' dropdown. The main content is a table with the following columns: Email, First Name, Last Name, Organization Name, Phone Number, Admin Name, and Admin Email. There are two rows of user data. The first row has 'Testy' as the first name and 'McTesterton' as the last name. The second row has 'Test' as the first name and 'User' as the last name. To the right of each row, there are 'Edit' and 'Deactivate' buttons. At the bottom left, it says 'Showing 1 to 2 of 2 entries'. At the bottom right, there are 'Previous', '1', and 'Next' navigation buttons.

4. Click **New User**, located in the top right corner of the page.

The New Data Submitter User page is displayed.

5. Enter the new data submitter's email address, first name, and last name in the appropriate fields. *Note that all fields are required.*
6. Click **Submit**.  
The user is added to the list of data submitters for your organization, and you are returned to the Account Users page.
7. Please inform the new user of the account creation.
  - a. The user will receive an email with a link for them to confirm their account.
  - b. Once the account has been confirmed, the user will need to navigate to the PMP Clearinghouse Login page and click **Forgot your password?** to create a password for their account and log in.
  - c. Upon logging in, the user will be able to view all files submitted for your organization's upload account.

### 8.1.1 Changing Another User's Password

1. [Log in to PMP Clearinghouse](#).
2. Click **Account**.

3. Select **Users** from the **Account** drop-down menu.

The Account Users page is displayed.

Email	First Name	Last Name	Organization Name	Phone Number	Admin Name	Admin Email	
test@pharmacy.com	Testy	McTesterton	Test Pharmacy	555-123-5555	Test User	test@pharmacy.com	<a href="#">Edit</a> <a href="#">Delete</a>

5. Enter a new password for the user in the **Password** field, then re-enter it in the **Password confirmation** field. The password requirements are provided below.

*Passwords must contain:*

- At least eight (8) characters
- One (1) uppercase letter
- One (1) lowercase letter
- One (1) number
- One (1) special character, such as !, @, #, \$, etc.

6. Click **Submit**.

The password is changed.

## 8.2 Adding States to Your Upload Account

If your organization needs to submit data files to an additional state that uses PMP AWARxE, you can submit the request through PMP Clearinghouse.

1. [Log in to PMP Clearinghouse.](#)
2. Click **Account**.

3. Select **Multi State Approval** from the **Account** drop-down menu.

The Multi State Approval page is displayed. This page displays all states currently using the PMP AWARxE system as well as your data sharing status with each state.

**SMITHERMANS PHARMACY Accounts Management MULTI STATE APPROVAL**

Please select state PMPs that will receive data from this account.  
We will not allow data into a state PMP from this account until the appropriate state administrator has approved this account.

<input checked="" type="checkbox"/>	CT Connecticut	Approved
<input type="checkbox"/>	DE Delaware	
<input checked="" type="checkbox"/>	DO Demo	Approved

Participating States | Your Approval Status

4. To request to submit data to another state, click to select the checkbox next to that state.

PMP Clearinghouse automatically saves your changes, and your request is submitted to the state’s PMP administrator for review and approval. Once the request has been approved, the status for that state will change from “Pending” to “Approved,” and you may begin submitting data to that state’s PMP.

### Notes:

- If you are submitting data via SFTP, the file must be located in the proper sub-folder to ensure delivery to the desired state PMP.
- To cancel data submission to a state’s PMP, uncheck the box for that state. Note that if you need to submit data to that state again in the future, you will have to go through the approval process again.

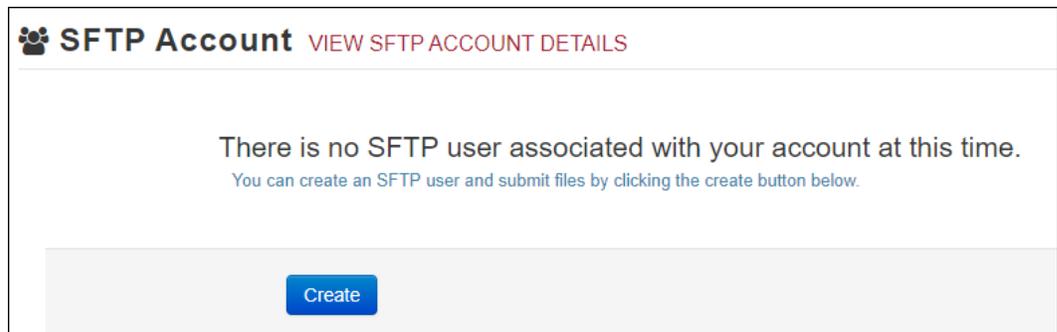

## 8.3 Adding SFTP Access to an Upload Account

If a registered upload account did not request an SFTP account during the account creation process, you can request one at any time using the **Account** menu option.

1. [Log in to PMP Clearinghouse](#).
2. Click **Account**.

3. Select **SFTP Details**.  
The SFTP Account page is displayed.

**Note:** If an SFTP account already exists for the upload account, the username is displayed on the SFTP Account page.

You cannot change the SFTP account username; however, you can update the password by clicking **Edit**.

4. Click **Create**.

The Create a New SFTP Account page is displayed.

The screenshot shows a web form titled "SFTP Account" with the subtitle "CREATE A NEW SFTP ACCOUNT". The form contains three input fields: "Name" (with a sub-label "Username of the SFTP account."), "Password", and "Password confirmation". At the bottom of the form are two buttons: a blue "Create" button and a red "Cancel" button.

5. Enter a username for the account in the **Name** field.

**Notes:**

- The username must contain a minimum of eight (8) characters.
- Once the SFTP account has been created, you cannot change the username.

6. Enter a password for the account in the **Password** field, then re-enter it in the **Password confirmation** field. The password requirements are provided below.

*Passwords must contain:*

- At least eight (8) characters
- One (1) uppercase letter
- One (1) lowercase letter
- One (1) number
- One (1) special character, such as !, @, #, \$, etc.

Once the account has been successfully created, this password will be input into the pharmacy software so that submissions can be automated.

**Notes:**

- This password can be the same as the one used when the upload account was created.
- Unlike your Profile password (i.e., your user account password), the SFTP password does not expire.
- The URL to connect via SFTP is [sftp://sftp.pmpclearinghouse.net](ftp://sftp.pmpclearinghouse.net).
- Additional details on SFTP configuration can be found in [Appendix C: SFTP Configuration](#).

7. Click **Create**.

The account is created, and the username is displayed.

## 8.4 Editing Your Upload Account

**Note:** This function only allows you to edit your organization's upload account. If you need to edit your individual profile information, please refer to [Editing Your Profile](#).

1. [Log in to PMP Clearinghouse](#).
2. Click **Account**.

3. Select **Account Details**.

## 9 Managing Your User Profile

This chapter describes how to manage your individual user profile, including how to edit your profile and manage your password.

**Note:** This chapter contains information for managing your individual user profile. For information about managing your organization's upload account, including how to add users, please refer to [Managing Your Upload Account](#).

### 9.1 Editing Your Profile

1. [Log in to PMP Clearinghouse](#).
2. Click **My Profile**.

3. Select **Edit My Profile**.

A screenshot of the 'Edit Profile' form. The form is titled 'Edit Profile' and includes a section for 'Profile Details' and a section for 'Organization Information'. The 'Profile Details' section contains four input fields: 'First name' (with 'ldap' entered), 'Last name' (with 'generated' entered), 'Email' (with 'rweaver@appriss.com' entered), and 'Time zone' (with '(GMT+00:00) UTC' selected). There is a checkbox for 'Disable report emails'. The 'Organization Information' section displays 'Name: SMITHERMANS PHARMACY', 'Admin: Test User', and 'Admin Email: testuser@appriss.com'. At the bottom of the form are two buttons: 'Save Changes' and 'Cancel'. A note at the top right of the form states '\* Indicates Required Field'.

4. Update your information as necessary, then click **Save Changes**.

**Note:** This function only allows you to edit your individual profile information. If you need to edit the Organization Information, please refer to [Editing Your Upload Account](#).

Your changes are saved, and your updated profile is displayed.

## 9.2 Changing Your Password

**Note:** Clearinghouse passwords expire every 90 days. You can use this function to proactively change your password before it expires. If your password has already expired, or you have forgotten your password, navigate to the PMP Clearinghouse Login page and click **Forgot your password?** to reset it. Please refer to [Resetting Your Password](#) for more information.

1. [Log in to PMP Clearinghouse.](#)
2. Click **My Profile**.

3. Select **Change Password**.

A screenshot of the "Change Password" form. The form has a title "Change Password" and a subtitle "Profile Details". Below the subtitle, there is a field for "Email" with the value "rweaver@appriss.com". There are three input fields: "Current password \*", "Password", and "Password confirmation". Below the "Current password" field, there is a note: "we need your current password to confirm your changes". At the bottom of the form, there are two buttons: "Update" (in blue) and "Cancel".

4. Enter your current password in the **Current Password** field.
5. Enter your new password in the **Password** field, then re-enter it in the **Password confirmation** field. The password requirements are provided below.

*Passwords must contain:*

- *At least eight (8) characters*
- *One (1) uppercase letter*
- *One (1) lowercase letter*
- *One (1) number*
- *One (1) special character, such as !, @, #, \$, etc.*

6. Click **Update**.

Your password is updated, and you will use it the next time you log in to PMP Clearinghouse.

## 9.3 Resetting Your Password

If you have forgotten your password or your password has expired, perform the following steps to reset it.

1. Open an internet browser window and navigate to the PMP Clearinghouse Login page located at [https://pmpclearinghouse.net/users/sign\\_in](https://pmpclearinghouse.net/users/sign_in).

The screenshot shows the login interface. At the top is a header with the word "Login". Below this are two input fields: "Email Address" and "Password". A blue button labeled "Login" is positioned below the password field, with a link "Create an Account" underneath it. A "Help" section is located below the login form, containing three links: "Forgot your password?", "Didn't receive confirmation instructions?", and "Didn't receive unlock instructions?".

2. Click the **Forgot your password?** link, located in the Help section of the page. The Forgot your password page is displayed.

The screenshot displays the "Forgot your password?" page. The title "Forgot your password?" is at the top. Below it is a section titled "Profile Details" with a note "\* Indicates Required Field". There is an "Email \*" input field. A blue button labeled "Send me reset password instructions" is below the input field. At the bottom of the page are three links: "Sign in", "Didn't receive confirmation instructions?", and "Didn't receive unlock instructions?".

3. Enter the email address associated with your user account, then click **Send me reset password instructions**.
4. Once you receive the reset password email, click the **Change my password** link within the email.

The Change your password page is displayed.

5. Enter your new password in the **New password** field, then re-enter it in the **Confirm your new password** field. The password requirements are provided below.

*Passwords must contain:*

- *At least eight (8) characters*
- *One (1) uppercase letter*
- *One (1) lowercase letter*
- *One (1) number*
- *One (1) special character, such as !, @, #, \$, etc.*

6. Click **Change my password**.

Your password is changed, and you can now use it to log in to PMP Clearinghouse.

# Appendix C: SFTP Configuration

This appendix describes the SFTP configurations required to upload your data to PMP Clearinghouse.

**Note:** Submitting data via SFTP requires that you have an existing PMP Clearinghouse account with SFTP access.

- If you need to create a PMP Clearinghouse account, please refer to [Creating Your Account](#). You will be able to set up your SFTP account during the account creation process.
- If you have an existing PMP Clearinghouse account but do not have SFTP access, please refer to [Adding SFTP Access to an Upload Account](#).

## SFTP Connection Details

**Hostname:** *sftp.pmpclearinghouse.net*

Appriss recommends that you use the hostname when configuring the connection rather than the IP address, as the IP address is subject to change.

**Port:** 22

**Note:** The port will always be 22.

- **Credentials:** Your SFTP account credentials (username and password) can be found within the PMP Clearinghouse website. To locate your credentials, [log in to PMP Clearinghouse](#), then click **Account > SFTP Details > Edit**.
- Your username cannot be modified; however, you can update your password.

**Note:** Your current SFTP password cannot be seen or recovered. If you have forgotten or lost it, you will need to create a new one. For more information on changing the SFTP password, please refer to [Adding SFTP Access to an Upload Account](#).

- **Once you have established SFTP access, you can test the SFTP connection, but you will not be able to submit data to a PMP until your account has been approved by the state PMP administrator.**

## State Subfolders

PMP Clearinghouse is the data repository for several states. As such, data submitted via SFTP must be placed in the appropriate folder for the state for which you are submitting data so that it can be properly imported to that state. The creation of subfolders must be done outside of the PMP Clearinghouse website using third-party software, such as an SSH client or a command line utility. Files placed in the root/home directory of the SFTP server will not be imported, as this will cause the dispensing entity to appear as noncompliant/delinquent.

Your pharmacy software will need to be configured to place files in the appropriate state folder when submitting. You may need to contact your software vendor for additional assistance with this process.

**NOTE:** Capitalization of the abbreviated state folders' names has no bearing on whether or not Clearinghouse processes the files; however, some pharmacy systems, especially \*nix-based systems, will require that the exact case is used when specifying the target folder.

There are two methods by which to create state subfolders for SFTP submissions:

1. **Via SSH client** (e.g., WinSCP, FileZilla, etc.)
  - a. Log in to your SFTP account.
  - b. Create the required directories under **/homedir**.

## 2. Via command prompt

- a. Log in to your SFTP account using command prompt.
- b. Type “**mkdir**” followed by a space and then the state abbreviation you are using (e.g., **mkdir PR**).

**NOTE:** The state folder must be titled with the two-letter abbreviation as specified above.

## Public (SSH/RSA) Key Authentication

PMP Clearinghouse supports SSH key authentication. The generation of the key is outside the scope of this document; however, general guidelines about the key, along with how to import/load it, are provided below.

**Note:** *PGP Encryption is not supported.*

- **Supported Key Types:**
  - SSH-2 RSA 2048 bit length
- **Unsupported Key Types:**
  - SSH-1 RSA
  - SSH-2 DSA
- **Correct Public Key Format:** If opened in a text editor, the key should look like the screenshot below.

- **Incorrect Public Key Format:** If opened in a text editor, the key SHOULD NOT look like the screenshot below.

```

- Once the key has been generated, it should be named “**authorized\_keys**”.

**Notes:**

- *There is no file extension.*
- *There is an underscore between the words **authorized** and **keys**.*
- A `.ssh` subfolder needs to be created in the SFTP account’s home directory. The “**authorized\_keys**” file must be placed in the `.ssh` folder. The creation of this folder follows the same process as creating a state subfolder. Please refer to [State Subfolders](#) for steps on creating subfolders.
